WHAT IS CREATIVITIES

First and foremost, **cre'a·tiv'i·ties** is a community gathering spot, built around a "hands-on" working studio and creative arts store.

Our studio is fully stocked for clay, wood, paper, beading, and textile projects, and staffed by smart, creative people ready to help.

Our projects and classes are geared to the old and young, allowing adults to share the joy of making a first racecar or kite with the children they love.

Applying the time-tested idea of using your own two hands to make things, **cre'a·tiv'i·ties** provides a way to slow down and reconnect with each other, while rediscovering the joys of the arts, trades and crafts that were once part of everyday living.
